**The Complexity of Tax Simplification** Simon James, Adrian Sawyer, Tamer Budak, 2016-04-29 Simplicity in taxation has considerable potential advantages However attempts to simplify tax systems are only likely to be successful and enduring if they take account of the reasons why taxation is complex There are strong pressures on tax systems to accommodate a range of important factors as well as complex and changing national and international environments within which modern tax systems have to operate This book explores the experiences of simplification in a range of countries and jurisdictions The authors analyse a range of manifestations of simplification including tax systems tax law taxpayer communications and tax administration They also review the longer term or more fundamental approaches to simplification suggesting that in order to strike the optimum balance between simplicity and the aims of a tax system in terms of efficiency and equity a range of complex environmental factors must all be taken into account With chapters reflecting on experiences from Australia China Canada Malaysia New Zealand Russia South Africa Thailand Turkey the UK and the US the authors illustrate differences between jurisdictions and the changing environment in which they operate This book addresses the crucial balance between simplicity and the other objectives of tax design and reform and suggests that reformers of the tax system should include simplicity as one of the key evaluators of any design or reform proposal **Manitoba Law Journal Volume 44 Issue 3**

**Underneath the Golden Boy Volume (2021)** Bryan P. Schwartz, et al., The Manitoba Law Journal MLJ is a peer reviewed journal founded in 1961 The MLJ's current mission is to provide lively independent and high caliber commentary on legal events in Manitoba or events of special interest to our community The MLJ aims to bring diverse and multidisciplinary perspectives to the issues it studies drawing on authors from Manitoba Canada and beyond Its studies are intended to contribute to understanding and reform not only in our community but around the world This issue has articles from a variety of contributing authors including Justice Gerald Jewers Stefanie Goldberg Colin Jackson Andrew Flavelle Martin Tom Mitchell Nick Noonan Bryan P Schwartz and Darcy L MacPherson **Taxation in the Digital Economy** Nella

Hendriyetty, Chris Evans, Chul Ju Kim, Farhad Taghizadeh-Hesary, 2022-07-11 A robust and efficient tax administration in a modern tax system requires effective tax policies and legislation Policy frameworks should cover all aspects of tax administration and include the essential processes of capturing processing analyzing and responding to information provided by taxpayers and others concerning taxpayers affairs By far the greatest challenges facing tax administrations in all countries are those posed by the continuing developments in the digital economy Whereas societies are grappling to come to terms with the transitions from the third industrial or digital revolutions revenue authorities grapple with the consequences for the sustainability of their tax bases and the efficient administration and collection of taxes This book presents a critical review of the status of tax systems in Asia and the Pacific in the era of the digital economy The book suggests how countries can maximize their domestic resource mobilization when confronted by the challenges that digitalization inevitably produces as

well as how they can best harness or take advantage of aspects of digitalization to serve their own needs The full implications of the COVID 19 crisis are still too uncertain to predict but it is clear that the crisis will accelerate the trend towards digitalization and also increase pressures on public finances This in turn may shape the preference for and the nature of both multilateral and unilateral responses to the tax challenges posed by digitalization and the need to address them This book will be a timely reference for those researching on taxation in digital economy and for policy makers The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Administrative Law in Action** Robert Thomas, 2022-02-10 This book investigates and analyses how administrative law works in practice through a detailed case study and evaluation of one of the UK's largest and most important administrative agencies the immigration department In doing so the book broadens the conversation of administrative law beyond the courts to include how administrative agencies themselves make apply and enforce the law Blending theoretical and empirical administrative legal analysis the book demonstrates why we need to pay closer attention to what government agencies actually do how they do it how they are organised and held to account Taking a contextual approach the book provides a detailed analysis of how the immigration department performs its core functions of making policy and law taking mass casework decisions and enforcing immigration law The book considers major recent episodes of immigration administration including the development of the hostile environment policy and the treatment of the Windrush generation By examining a diverse range of material the book presents a model of administrative law based upon the organisational competence and capacity of administration and its institutional design Alongside diagnosing the immigration department's failings the book advances positive proposals for its reform
