Boost Mobile Device Support

James A. O'Brien, George M. Marakas

Boost Mobile Device Support:

Social Media for Nurses Ramona Nelson, Irene Joos, Debra M. Wolf, 2012-11-12 The authors recognize the role the nurse has in empowering patients to take charge of their health by using social media responsibly. The information presented in this book can be useful to nurses in a variety of settings and with different levels of understanding regarding social media. The authors masterfully present information on Web 2.0 and Health 2.0 applications for nurses at the point of care. Educators, advanced practice practitioners, administrators, and nursing students. Michelle E. Block, RN, PhD, *Nursing Science Quarterly*. This book clearly and comprehensively presents the knowledge and skills nurses and health professionals need in order to effectively use the Internet and interactive social media to educate health consumers. By understanding and using Web 2.0 and Health 2.0 applications and technology, nurses will have access to a critical tool for improving the health of individuals, families, and communities as well as enhancing their own professional development. The different types of health care information sites available on the Internet are addressed along with criteria for evaluating them. The text provides a framework for understanding the devices that support social media and depicts the many scenarios in which social media can be used to promote health. Also included are examples of research studies related to health care informatics. Each chapter begins with clear and concise learning objectives and explanations of related terms. A theoretical foundation for understanding the concepts in the chapter is included along with web-based resources that support additional in-depth learning. Discussion questions and exercises stimulate the development of critical thinking skills and promote point of care applications. Advances in technology and point of care use expected to come in the near future are woven throughout. The text will be of value for all nurse education and practice settings. Key Features: Provides easily understood information on interactive social media applications and their implications for nursing and health delivery. Illustrates how to use social networking tools and sites effectively. Describes the types of health care information websites available and how to evaluate them. Addresses the many devices that support social media and when to use them. Includes a database of tools and resources to assist educators, students, administrators, and practitioners in their use of the Internet and social media.

Emerging

Trends in Cloud Computing Analytics, Scalability, and Service Models Darwish, Dina, 2024-01-25 Academic scholars and industry professionals alike face the formidable challenge of staying informed about emerging trends and innovations in cloud computing. The expansive realm of cloud technology has been the catalyst for several transformative changes across industries, offering unparalleled opportunities for optimization and innovation. However, even seasoned experts may find themselves daunted by the intricate web of new technologies, including green cloud computing, edge computing, cryptography, and the cloud load balancing strategies and cloud analytics insights. *Emerging Trends in Cloud Computing Analytics, Scalability, and Service Models* provides academic scholars and industry professionals with a comprehensive exploration of these critical cloud computing topics and more. This invaluable resource provides clarity and insight, serving as a guiding beacon in the

ever evolving world of cloud technology Whether you're seeking to understand the intricacies of cloud security solutions the nuances of scalability in cloud computing or the various service models in the cloud this book empowers you to navigate this dynamic field with confidence and expertise Pervasive Collaborative Networks Luis M. Camarinha-Matos, Willy Picard, 2008-08-27

COLLABORATIVE NETWORKS Becoming a pervasive paradigm In recent years the area of collaborative networks is being consolidated as a new discipline Camarinha Matos Afsarmanesh 2005 that encompasses and gives more structured support to a large diversity of collaboration forms In terms of applications besides the traditional sectors represented by the advanced supply chains virtual enterprises virtual organizations virtual teams and their breeding environments new forms of collaborative structures are emerging in all sectors of the society Examples can be found in e government intelligent transportation systems collaborative virtual laboratories agribusiness elderly care silver economy etc In some cases those developments tend to adopt a terminology that is specific of that domain often the involved actors in a given domain are not fully aware of the developments in the mainstream research on collaborative networks For instance the grid community adopted the term virtual organization but focused mainly on the resource sharing perspective ignoring most of the other aspects involved in collaboration The European enterprise interoperability community which was initially focused on the intra enterprise aspects is moving towards inter enterprise collaboration Collaborative networks are thus becoming a pervasive paradigm giving basis to new socio organizational structures
