**Knowledge Shaping** Valentina Lepri,2023-11-20 How can we portray the history of Renaissance knowledge production through the eyes of the students Their university notebooks contained a variety of works fragments of them sentences or simple words To date studies on these materials have only concentrated on a few individual works within the collections neglecting the strategy by which texts and textual fragments were selected and the logic through which the notebooks were organized The eight chapters that make up this volume explore students note taking practices behind the creation of their notebooks from three different angles The first considers annotation activities in relation to their study area to answer the question of how university disciplines were able to influence both the content and structure of their notebooks The volume s second area of research focuses on the student s curiosity and choices by considering them expressions of a self learning practice not

necessarily linked to a discipline of study or instructions from teaching The last part of the volume moves away from the student's desk to consider instructions on note taking methods that students could receive from manuals of various kinds

**Becoming an Author: Advice for Academics and Other Professionals** David Canter, Gavin Fairbairn, 2006-04-16 Canter and Fairbairn offer helpful advice on getting started in academic writing together with offering some useful tips and pointers for those more established. As such this is a handy text to have on the shelf as a reminder and as a support for students and new colleagues entering the world of academic publication. Studies in Higher Education Would you like to write for publication but can't find the time or motivation to do so? Do you already publish academically or professionally and want to extend your portfolio of publications? Would you like help in guiding your students as they set out on a career as published authors? *Becoming an Author* provides an accessible and engaging toolkit for authors, students, academics and other professionals who want to build their careers, their confidence and their personal satisfaction through publication. It demystifies the move from being an effective student or active professional to being a published author. The authors draw aside the veils of confusion that surround the practicalities of publishing in academic journals or entering the book market place. This book takes the reader through the publishing process from planning and writing through to contractual and ethical matters, discussing key issues such as The importance of structure and style, Where and how to publish your work, Dealing with publishers, The future of academic publishing. The authors' experience of publishing, editing and reviewing in a range of academic areas has allowed them to fill the book with real life experiences about encountering and overcoming problems associated with becoming an author. It has also allowed them to address the psychological and emotional barriers that confront authors and to offer practical help in getting past them.
