A detailed and absorbing narrative of the campaigns fought on the forgotten Eastern Front of the Great War vividly illustrating that these campaigns were no less costly tragic and important than the catastrophes of the Somme Verdun and Passchendaele The massive offensives on the Eastern Front during 1915 are too often overshadowed by the events in Western Europe but the scale and ferocity of the clashes between Imperial Germany Habsburg Austria Hungary and Tsarist Russia were greater than anything seen on the Western Front and ultimately as important to the final outcome of the war With the Russians hamstrung by weak supply lines and the Austro Hungarian leadership committed to a strategy of offensive drives despite diminishing manpower and adverse terrain the fighting in early 1915 was a costly and futile exercise By the summer the Central Powers increasingly dominated by Germany had begun to gain the advantage but even the Gorlice Tarn w Offensive of 1915 which ultimately resulted in the retreat of Russian forces from Poland failed to bring the conflict to a conclusion Now with the work of internationally renowned Eastern Front expert Prit Buttar this fascinating story is finally being told From the bitter fighting in the Carpathian Mountains to the sweeping advances through Serbia and the almost medieval battle for the fortress of Przemysl this is a staggeringly ambitious history of some of the most important moments of the First World War      **Asian Sources Electronic Components** ,2004      Digital Review of Asia Pacific 2009-2010 Shahid Akhtar,2009-06-03 The biennial Digital Review of Asia Pacific is a comprehensive guide to the state of practice and trends in information and communication technologies for development ICTD in the Asia Pacific region This fourth edition 2009 2010 features 30 economies and four sub regional groupings The chapters provide updated information on ICT infrastructure industries content and services key programs enabling policies and regulation education and capacity building open source and research and development initiatives as well as ICTD challenges in each of the economies covered The common framework that underpins these reports allows readers to undertake a comparative analysis and assess progress across Asia Pacific In addition regional overviews provide a synthesis of ICTD trends regulatory issues and lessons for managing innovation in the network economy The thematic chapters focus on issues in ICT in education a key area in ICTD The authors are drawn from government academe industry and civil society providing a broad perspective on the use of ICTs for human development      **The Mega Yearbook 2021 for Competitive Exams - 6th Edition** Disha Experts,      **The Yearly Current Affairs 2021 for Competitive Exams 6th Edition** Disha Experts,2020-02-04      **Motor Age** ,1915      **E M F Electrical Year Book** ,1923      *Doing Business in Korea* Fabian Jintae Froese,2019-08-19 Much of the existing research looks at the outflow of companies and people from Korea to foreign countries whilst less is known about foreign firms and workers in Korea Considering the immense interest of both academics and practitioners in the business opportunities in Korea this book provides a comprehensive overview of doing business in Korea and recommendations on how foreign
