Orme,2006 Clearly presents all aspects of evaluation for human services including conceptualization measurement design and analysis Focusing on single system designs this text presents clear and user friendly guidelines on conceptualizing and measuring problems developing practice oriented evaluation designs understanding and analyzing data and ethical guidelines for practice evaluation Specifically written for students and practitioners in all the human services including social work psychology counseling nursing and psychiatry *A Guide to the Evaluation of Educational Experiences in the Armed Services* ,2004 Probabilistic Machine Learning Kevin P.

Murphy,2023-08-15 An advanced book for researchers and graduate students working in machine learning and statistics who want to learn about deep learning Bayesian inference generative models and decision making under uncertainty An advanced counterpart to Probabilistic Machine Learning An Introduction this high level textbook provides researchers and graduate students detailed coverage of cutting edge topics in machine learning including deep generative modeling graphical models Bayesian inference reinforcement learning and causality This volume puts deep learning into a larger statistical context and unifies approaches based on deep learning with ones based on probabilistic modeling and inference With contributions from top scientists and domain experts from places such as Google DeepMind Amazon Purdue University NYU and the University of Washington this rigorous book is essential to understanding the vital issues in machine learning Covers generation of high dimensional outputs such as images text and graphs Discusses methods for discovering insights about data based on latent variable models Considers training and testing under different distributions Explores how to use probabilistic models and inference for causal inference and decision making Features online Python code accompaniment **Individuality in music performance**

Bruno Gingras,2014-10-22 Humans are remarkably adept at identifying individuals on the basis of their facial features or other traits such as gait or vocal timbre Besides voice another auditory medium capable of carrying identity information is music Indeed certain famous musicians such as John Coltrane or Sonny Rollins need only to play a few notes to be unequivocally recognized Along with emotion and structural cues artistic individuality seems to be a key element communicated in music performance Yet the means by which individuality is expressed in performance as well as the cognitive processes employed by listeners to perceive identity cues remain poorly elucidated Other pertinent issues including the connection between a performer s technical competence and ability to convey a specific musical identity as well as

potential links between individuality and career defining outcomes such as critical recognition and aesthetic appraisal warrant further exploration Quantitative approaches to the study of music performance have benefited greatly from MIDI technology and the application of computational methods leading to the flourishing of empirical music performance research over the last few decades More recently neuroimaging techniques have provided valuable insights into the neural mechanisms involved in the cognitive processes of performing music Nevertheless this field continues to benefit greatly from qualitative approaches given that the communication of affect and identity cues in music performance leads to a rich subjectivity of impressions that must be accounted for in order to lead to a greater understanding of this multifaceted phenomenon The aim of this Research Topic is to provide a forum for interdisciplinary research broadly related to the expression and perception of individuality in music performance Research methodology includes behavioral psychophysiological and neuroimaging techniques Both quantitative and qualitative approaches are presented The scope of this Research Topic includes laboratory studies as well as studies in real life performance settings and longitudinal studies on performers **Kilobaud** ,1978 **Resources in Education** ,1993-07 *Training and Development Journal* ,1987
