Practice Anthony Ryle Editor 1995 Ryle is surely the most original productive and interesting writer in psychotherapy in Britain today and CAT is a remarkable systematizing achievement which deserves to be better known on the other side of the Atlantic This book documenting CAT's recent theoretical and practical developments is a must for anyone interested in CAT itself and in integrative approaches for those interested in brief psychodynamically informed therapy or indeed for those interested in developments in psychology generally Robert Rentoul British Journal of Medical Psychology *Taking Responsibility* Pamela Kay Bjorklund, 2006
