## **Borges In 90 Minutes:**

Borges in 90 Minutes Paul Strathern, 2006-11-06 Building on his enormously successful series of Philosophers in 90 Minutes Paul Strathern now applies his witty and incisive prose to brief biographical studies of the world's great writers. He brings their lives and ideas to life in entertaining and accessible fashion. Far from being a novelty, each book is a highly refined appraisal of the writer and his work, authoritative and clearly presented. Applause for Paul Strathern's Philosophers in 90 Minutes series. Each of these little books is witty and dramatic and creates a sense of time, place and character. I cannot think of a better way to introduce oneself and one's friends to Western civilization. Katherine A. Powers, Boston Globe. The Writers Directory, 2013. X Films Alex Cox, 2008-09-01 Filmmaker Alex Cox's thoughtful autobiography examines his craft and influences as well as providing his insights into many of his favorite films. Sometimes called a radical, Cox is a quintessential auteur as well as an internationally focused insightful critic and writer whose passion for film has gripped him since childhood. In addition to being a captivating look into Cox's process, this book also encourages and instructs would-be independent filmmakers, guiding the next generation of film pioneers through the arduous journey of creation. Cox weaves his own confessions with his notes to the new guard, including thoughts on new forms of digital distribution and his radical views on intellectual property. The result is a readable, startling treatise on both the film innovations of today and the thrilling potential of future filmmaking. **American Book Publishing Record**, 2006. **ISLA**, 1976-03 Clippings of Latin American political, social and economic news from various English language newspapers. *Annual Review of Nursing Research, Volume 35*, 2016-12-21 Advances in the delivery and monitoring of anesthesia care have expanded and improved exponentially in the last 30 years. These advances have been driven by a persistent search for best practices based on a foundation of evidence-based care. It is this interest in translation of research to practice that spawned this 35th edition of the Annual Review of Nursing Research, the first of this series to address anesthesia care. This volume bridges that gap for all those involved or interested in clinical anesthesia care, including nurse anesthetists, physician anesthesiologists, anesthesia assistants, and postanesthesia care unit nurses. It aims to identify current topics in anesthesia care that generate discussion and disagreement with respect to the available research and evidence and therefore application of best practices. Each author was specifically selected for their interest, expertise, and knowledge of the chapter topic, but just as importantly for their direct exposure to the issue within their personal clinical experience. The material provides the busy clinician with the most up-to-date information and recommendations on topics germane to everyday practice. Key Topics: Preparing Anesthetists to Manage Cannot Intubate Cannot Ventilate Situations; Anesthetic Implications of Obesity and Obstructive Sleep Apnea; Anesthesia Information Management Systems; Acupuncture and Chronic Pain Management; Anesthesia Involvement in Palliative Care; Forced Air Warmers and Surgical Site Infections in Patients Undergoing Knee or Hip Arthroplasty; The Neurotoxicity of General Anesthetic Drugs; Emphasis on the Extremes. This vast three volume Encyclopedia offers more than 4000 entries on all aspects of the dynamic and exciting contemporary cultures of Latin America and the Caribbean. Its coverage is unparalleled with more than 40 regions discussed and a time span of 1920 to the present day. Culture is broadly defined to include food, sport, religion, television, transport, alongside architecture, dance, film, literature, music, and sculpture. The international team of contributors include many who are based in Latin America and the Caribbean, making this the most essential authoritative and authentic Encyclopedia for anyone studying Latin American and Caribbean studies. Key features include over 4000 entries ranging from extensive overview entries which provide context for general issues to shorter factual or biographical pieces, articles followed by bibliographic references which offer a starting point for further research, extensive cross referencing and thematic and regional contents lists direct users to relevant articles and help map a route through the entries, a comprehensive index provides further guidance. Optimizing Player Health, Recovery, and Performance in Basketball, volume II Davide Ferioli, Aaron T. Scanlan, Daniele Conte, 2025-03-19. This Research Topic is the second volume of the article collection *Optimizing Player Health Recovery and Performance in Basketball*. Please see the first volume here. In line with the first volume, basketball is a popular team sport played all over the world by male and female players participating in various competitions. As the game continues to evolve, there are new challenges and opportunities being faced by teams. Consequently, basketball organizations constantly seek competitive advantages that optimize the health, recovery, and performance of players through various practices. The growing body of basketball research provides an essential evidence base for basketball organizations to draw upon when implementing different practices. As such, it is important that sound basketball research with strong practical translation is produced on topics relevant to player health, recovery, and performance. In this regard, examination of coaching, training, testing, monitoring, nutrition, recovery, injury prevention, psychological performance analysis, and sleep strategies, as well as technological innovations that can improve the existing understanding and practices in basketball, would prove advantageous for basketball coaches, high performance staff, and players alike.
