American Red Cross Study Guide 2013:

Essential Clinical Global Health, Includes Wiley E-Text Brett D. Nelson, 2015-01-27 *Essential Clinical Global Health* is a brand new pioneering and evidence based textbook that provides a clinical overview of the increasingly prominent specialty of global health. Originally developed from a course at Harvard Medical School and now with contributions from nearly 100 world renowned global health experts from across the globe, this textbook presents vital information required of students, trainees, and clinicians during their international experiences and training. *Essential Clinical Global Health* introduces readers to the up to date knowledge, skills, and approaches needed for productive and rewarding global health experiences. It provides essential clinical information on the diagnosis, management, and prevention of the leading causes of morbidity and mortality in low and middle income countries. The textbook also includes practical guidance on topics such as health systems, population based approaches, cultural awareness and sensitivity, travel preparedness and safety, and career development in global health. With key learning objectives in each chapter, practical clinical advice, setting appropriate guidelines, personal field experiences from student and clinician contributors, *Essential Clinical Global Health* is the first global health textbook with a clinical focus for healthcare students, trainees, and providers. A companion website at www.wileyessential.com/globalhealth features self assessment questions and videos.

The Routledge Handbook of Spanish Translation Studies Roberto Valdeón, África Vidal, 2019-05-28 Written by leading experts in the area, *The Routledge Handbook of Spanish Translation Studies* brings together original contributions representing a culmination of the extensive research to date within the field of Spanish Translation Studies. The Handbook covers a variety of translation related issues, both theoretical and practical, providing an overview of the field and establishing directions for future research. It starts by looking at the history of translation in Spain, the Americas during the colonial period, and Latin America, and then moves on to discuss well established areas of research such as literary translation and audiovisual translation, at which Spanish researchers have excelled. It also provides state of the art information on new topics such as the interface between translation and humour, on the one hand, and the translation of comics, on the other. This Handbook is an indispensable resource for postgraduate students and researchers of translation studies.

WHO neonatal resuscitation manikin, 2021-10-15 The United Nations Commission on Life Saving Commodities UNCLSC 2012 defined 13 health products to end preventable deaths of women and children. One of those 13 products is the neonatal resuscitator, an indispensable medical device to save newborns from asphyxia at birth. For the efficient use of neonatal resuscitation, training of healthcare professionals using neonatal resuscitation manikins is the most effective approach. Critical lifesaving trainings call for the need of neonatal resuscitation manikins with the right features. The purpose of the WHO neonatal resuscitation manikin technical specifications is to provide a minimum standard baseline to meet the increasing demand to procure good quality, affordable, accessible, and appropriate neonatal resuscitation manikins. Towards the development of this baseline, this document includes compilation of

available scientific evidence from technical literature international publications expert reviews and an industry survey which was conducted by WHO medical devices team
