American Sniper Not True:

White Supremacy and the American Media Sarah D. Nilsen, Sarah E. Turner, 2021-11-29 This volume examines the ways in which the media including film television social media and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse With chapters by today s preeminent critical race scholars the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape Systematically scrutinizing every media platform this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology and presents them with the means to examine and analyze the persistence of these narratives within our racial discourse thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives White Supremacy and the American Media will be of interest not only to scholars working in critical race studies and popular culture in the United States but also to those working in the fields of Film and Television Studies Sociology Geography Art History Communication and Media Studies Cultural Studies American Studies Popular Culture and Media Studies

Modern American Snipers Chris Martin, 2014-12-16 An inside look at today s special operations sniper and an in depth look at the career of Chris Kyle from those who knew him and fought alongside him Most people think of snipers as shooters perched in urban hides dealing out death unseen from a considerable distance But this description barely scratches the surface Special operations snipers are men with stacked skill sets who have the ability to turn the tide of battles even when they aren t pulling the trigger Snipers have played an outsized role in the War on Terror that has earned them the Medal of Honor Navy Cross and countless other honors These are the most experienced warriors on the battlefield oftentimes the units best assaulters with years of door kicking under their belt These are the men who run ops in small teams across borders or dress like locals and pull off high risk vehicle reconnaissance and singleton missions in non permissive environments Chris Martin s Modern American Snipers tells the inside story of some of the most heroic patriots in recent American history by the friends and colleagues who knew them best including The Legend Chris Kyle SEAL Team 3 Chief and the most lethal sniper in U S military history The Reaper Nick Irving the first African American to serve as a sniper in the 3rd Ranger Battalion and its deadliest with 33 confirmed kills Robert Horrigan Delta sniper who played a critical role in Operation Anaconda Don Hollenbaugh Delta Operator who earned the Distinguished Service Cross while embedded with a Marine platoon in the First Battle of Fallujah And many more

Transnational Film and the US Wars in Iraq & Afghanistan Marzena Sokołowska-Paryż, Marek Paryż, 2025-01-15 This book offers insights into diverse non American national perspectives on the US led military interventions in Afghanistan and Iraq within the generic frames of the war film While the best known films about the post 9 11 wars in the Middle East are American productions various other national cinematographies have responded to these conflicts which is not surprising

given the fact that international coalitions were formed to support the US military effort However non American war films about these US instigated interventions have received little attention outside their own national contexts This volume fills in the gap in the existing war film criticism by offering insights into how the Afghanistan War 2001 2021 and the Iraq War 2003 2011 have been represented in popular and documentary filmic productions in Iraq Afghanistan Great Britain Germany Denmark Poland Spain and Australia The contributions prove the need for transnationalism as an eye opening perspective on the war film genre by underscoring nationally specific social political and aesthetic differences alongside important correspondences between cultural productions across nations Transnational film and the US wars in Iraq and Afghanistan will be a key resource for scholars and researchers of film studies media and cultural studies film history war studies literary criticism and sociology It was originally published as a special issue of Journal of War Culture Studies The Hell of War Comes Home Owen W. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel The Yellow Birds and Phil Klay s short stories Redeployment along with the films The Hurt Locker American Sniper and Billy Lynn s Long Halftime Walk For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding *The Films of Clint Eastwood* Matt Wanat,Leonard Engel,2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood s 2014 American Sniper a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood s body of cinematic work As a collection these essays show that none of these themes account for Eastwood s entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives The After Michael Ramos,2024-03-05 When Michael Ramos enlisted in the Navy and

was assigned to serve as a chaplain's bodyguard thirteen days before 9/11 he had no idea he would soon be sent to Iraq. But he embraced the posting, combat service and career for a decade until at age thirty-four the military told him his skill set was no longer relevant. Through divorce and remarriage, his son's choice to enlist in the Marines, the loss of friends to war and suicide, and his inability to sleep or rest, Michael struggled with the return to civilian life and particularly with civilian attitudes toward veterans. In twenty-four concussive, embodied and nonlinear essays, Michael creates a challenging and complex portrait of what it means to be a warrior, civilian, veteran, father, husband, and teacher, for he ultimately uses the skills he developed in the military to help others find meaning in their lives. While this may sound like a redemption story, it is instead a brutally honest portrayal that refuses easy answers and seeks to help other war veterans realize they're not alone as they search for their place in the world.

Fighting Blind Ivan Castro, Jim DeFelice, 2016-11-15 Fighting was a practiced routine for Lieutenant Ivan Castro. But when a mortar round struck the rooftop of his sniper's post in Iraq, he found himself in a battle more difficult than even he could have imagined. The direct hit killed two other soldiers and nearly claimed Castro's life as well. Mangled by shrapnel and badly burned, Castro was medevaced to Germany, more dead than alive. His lungs were collapsed. He couldn't hear. One eye had been blown out, the nerve to the other severed. In the weeks and months that followed, Castro would find that physical darkness was nothing compared to the emotional darkness of loss and despair. Desperate for a reason to live, he eventually fought his way back to health through exercise and a single-minded goal: running a marathon. Once he set his course, there was no stopping him. Stubborn to a point that at times bordered on insanity, he managed not only to recover but to return to active duty. Since 2007, he has run over two dozen marathons, including the Boston Marathon in 2013, where he was one of the runners diverted when the bombs exploded. Today, Castro helps prepare soldiers for combat, working exactly as if he were sighted. **Fighting Blind**, this frankly told account of his struggle through adversity, the highs and lows, and the always bumpy road in between, is a story of hope and perseverance against the odds, an Unbroken for the present generation.

What can we learn from biomedical research with mice? Who enjoys a better quality of life: the chicken destined for your dinner plate or the rooster in a Saturday night cockfight? Why is it wrong to eat the family dog? Drawing on more than two decades of research into the emerging field of anthrozoology, the science of human-animal relations, Hal Herzog offers an illuminating exploration of the fierce moral conundrums we face every day regarding the creatures with whom we share our world. Alternately poignant, challenging, and laugh-out-loud funny, blending anthropology, behavioral economics, evolutionary psychology, and philosophy, this enlightening and provocative book will forever change the way we look at our relationships with other creatures and ultimately how we see ourselves.
