more often than not related to extensive trauma induced to the ligaments spinal nerves muscles and joints from failure to consider calculated sleeping positions Other conditions may occur in the event of a low back neck related trauma such as narrowing of the air passages and irreparable damage to the spinal cord Resulting from steroid injected occurrences the majority of the time abnormal alignment of the spine can have a fatal outcome in that the cycle of life is inevitably broken The throat area is vital to the survival of the human body in that it contains important arteries that supply oxygen to the brain Found in the neck is the larynx trachea parathyroid glands esophagus and the beginning of the spinal cord In the neck there are also seven vertebrae the C 1 through the C 7 and their job is to support the head The goal of a professional neck surgeon is to restrict articulation and requires an excessive amount of grace and professional calculations **American Sniper**
