Amped wireless setup at your home or offices provide more network coverage and ease to use the amped wireless routers through amped router login. Setup.ampedwireless.com is a LAN address that ensures access to the amped wireless routers graphical user interface. It makes use of the default set amped router login information to enter the web GUI. This further allows the users to configure the router settings for enhanced security and personalizing router settings.

Connecting Amped Wireless Router to Hardware Devices:

The initial step to amped router setup is to connect the router to other hardware devices such as modem and computer to create a wireless network.

You can connect the amped wireless router using either wired or wireless connections. However, it is also possible with quick and ease using the "Plug and Play setup" process for amped devices.

After connecting, the amped setup wizard is directed for amped router setup through setup.ampedwireless.com login.

To connect your hardware devices to the amped wireless router internet network using two ways- wirelessly or wired connection:
