They also review how employees are central to the delivery of CSR actions by exploring how green organisational culture affects organisational citizenship behaviour how organisational green practices impact an organisation's image and its customers' environmental consciousness and behavioural intentions and how organisational CSR affects employee pro-environmental citizenship and tourists' pro-environmental citizenship. The book concludes by reviewing the role of consumers in CSR with ten strategies to close the consumers' attitude-behaviour gap and an account of how customers' trust is a mediator between CSR image and loyalty. This book was originally published as a special issue of the Journal of Sustainable Tourism.
