Personality Theories Workbook 5th Edition:

Personality Theories Workbook Donna Ashcraft, 2011-01-10 The case studies in PERSONALITY THEORIES WORKBOOK 5e help students learn and apply personality theories to real life examples of typical rather than abnormal behavior. While most personality texts present just the major concepts of personality theories, Donna Ashcraft's unique workbook ensures that students thoroughly understand examples and enables students to put theories into practice. The text's wide range of case studies is accompanied by questions that guide students through an analysis of the case, prompting them to consider how a particular theorist would view it. A variety of questions helps students apply each theory to real world examples while resources such as theory comparison questions ensure that students understand the differences between each theory.

Succinct, affordable and accessible PERSONALITY THEORIES WORKBOOK 5e combines an excellent assortment of cases with critical thinking questions and greater application of theories to students' personal lives. The result is solid student understanding. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Personality Theories Workbook Donna Musialowski Ashcraft, 2003 This unique workbook was written for the undergraduate Personality course where professors are looking for activities to help students learn and apply personality theories to real life examples. The workbook is geared toward personality courses that are theories based as opposed to research based. Because the cases explored are those based on normal behavior as opposed to abnormal behavior, this workbook is especially useful. While most personality texts present the major concepts of personality theories, they don't help students apply the theories they have learned or to use the theories to understand other examples on their own. This workbook will help students do just that and is the perfect complement to any Personality text.
