demonstrate that intellectual certainty is a function of the method it employs rather than a knowledge of the existence or non existence of its objects a devastating insight that appears to make the natural and the supernatural into equally useless examples of each other This biography proceeds in the same way Scattered in every direction by this challenge to meaning it attempts to retrieve itself around the spirit of the man who could say such things This act of recovery thus performs what could not otherwise be explained which is something like Wittgenstein's private conversation with God The Bankers' Magazine, and Journal of the Money Market ,1871 *The Rocket: Or, the Story of the Stephensons, Father and Son.
