Ian Ebbitt

Answer Then Question Haikus And Other Poems:

Answer Then Question Ian Ebbitt, 2013-12 Ian's debut book *Answer Then Question Haikus and Other Poems* is a collection of poetry comprised of both fictional and non-fictional inspirations. Ian takes a traditional style in Haikus and puts a modern twist to them. Some of Ian's poems are based on his life events and accounts, but others are not at all, especially the more melancholy ones. Ian tends to take an actor's approach to many of his poems as if he gets most of his inspiration from observing people and then imagines a situation or scenario and puts himself in as the character of that story. He delves into these fictional situations so much so that as the reader you cannot believe that the events are not his own. Ian has yet to find a subject matter that he will not write and pour himself into. This book demonstrates just that with the wide range of topics he covers. Unlike some writers and poets that stick to particular themes of interest, Ian mixes them up with his favorite being **EVERYTHING**

Sense of Emptiness Pernilla Hallonsten, Marina Shchepetunina, Junichi Toyota, 2011-12-08 Human perception is often believed to function holistically, especially in the tradition of Gestalt psychology involving a focused item and its surrounding. This holistic approach can allow us to explain something that is not directly experienced in our perception, meaning that the absence as well as the presence of something can have a significant impact on how we perceive the world. The way we perceive the presence is more or less the same cross-culturally, but the prominence of the absence or what is termed 'emptiness' in this volume varies considerably from one culture to another. The aim of this volume is to identify what 'emptiness' is like and how different cultures incorporate this concept from various perspectives. It turns out that 'emptiness' plays a key

role in identifying socio cultural diversity in a broader sense including arts and languages This volume consists of contributions from different fields covering a wide range of topics such as history literary studies mythology film studies architecture linguistics social anthropology ethnology and cognitive science Due to the range covered in this volume studies presented here are highly interdisciplinary but all chapters deal with the sense of emptiness which suggest that the underlying idea of the significance of emptiness is pervasive Yet this topic has not previously been systematically compared across different disciplines It is hoped that this volume will offer a first overview of the pervasiveness and integration of disciplines concerning the sense of emptiness
