*Managing Emotion in Byzantium* Margaret Mullett, Susan Ashbrook Harvey, 2022-09-30 Byzantinists entered the study of emotion with Henry Maguire's ground breaking article on sorrow published in 1977 Since then classicists and western medievalists have developed new ways of understanding how emotional communities work and where the ancients concepts of emotion differ from our own and Byzantinists have begun to consider emotions other than sorrow It is time to look at what is distinctive about Byzantine emotion This volume is the first to look at the constellation of Byzantine emotions Originating at an international colloquium at Dumbarton Oaks these papers address issues such as power gender rhetoric or asceticism in Byzantine society through the lens of a single emotion or cluster of emotions Contributors focus not only on the construction of emotions with respect to perception and cognition but also explore how emotions were communicated and exchanged across broad multi linguistic political and social boundaries Priorities are twofold to arrive at an understanding of what the Byzantines thought of as emotions and to comprehend how theory shaped their appraisal of reality Managing Emotion in Byzantium will appeal to researchers and students alike interested in Byzantine perceptions of emotion Byzantine Culture and medieval perceptions of emotion **A Companion to Greek Rhetoric** Ian Worthington, 2010-01-11 This complete guide to ancient Greek rhetoric is exceptional both in its chronological range and the breadth of topics it covers Traces the rise of rhetoric and its uses from Homer to Byzantium Covers wider ranging topics such as rhetoric's relationship to knowledge ethics religion law and emotion Incorporates new material giving us fresh insights into how the Greeks saw and used rhetoric Discusses the idea of rhetoric and examines the status of rhetoric studies present and future All quotations

Blowers,2020-06-11 Despite the pervasive early Christian repudiation of pagan theatrical art especially prior to Constantine this monograph demonstrates the increasing attention of late ancient Christian authors to the genre of tragedy as a basis to explore the complexities of human finitude suffering and mortality in relation to the wisdom justice and providence of God The book argues that various Christian writers particularly in the post Constantinian era were keenly devoted to the mimesis or imaginative re presentation of the tragic dimension of creaturely existence more than with simply mimicking the poetics of the classical Greek and Roman tragedians It analyses a whole array of hermeneutical literary and rhetorical manifestations of tragical mimesis in early Christian writing which capitalizing on the elements of tragedy already perceptible in biblical revelation aspired to deepen and edify Christian engagement with multiform evil and with the extreme vicissitudes of historical existence Early Christian tragical mimetics included not only interpreting and often amplifying the Bible s own tragedies for contemporary audiences but also developing models of the Christian self as a tragic self revamping the Christian moral conscience as a tragical conscience and cultivating a distinctively Christian tragical pathos The study culminates in an extended consideration of the theological intelligence and accountability of tragical vision and tragical mimesis in early Christian literary culture and the unique role of the theological virtue of hope in its repertoire of tragical emotions

**Friendship and Benefaction in James** Alicia J. Batten, 2017-06-23 Now available from SBL Press Employing social description social scientific models and rhetorical analysis Alicia J Batten argues that the letter of James is conversant with the topic of friendship within Greek and Roman literature as well as within various texts of early Christianity She illustrates how James drew upon some of the language and concepts related to friendship with an intriguing density to advocate resistance to wealth avoidance of rich patrons and reliance upon God Features Use of friendship benefaction and patronage as lenses through which James and related texts can be viewed A strong case for how the letter appels to the language and ideas of friendship with regard to God s relationships with humans Exploration of the relationship between the book of James and the teachings of Jesus    [The Classical Review](#) ,2005    **Envy** Richard H. Smith, 2008 For centuries scholars have argued that envy is the source of much aggressive behavior as well as the root cause of much unhappiness but it is only recently that there have been attempts to examine the emotion from an empirical perspective This book is the first of its kind to offer a comprehensive summary of current theoretical and empirical work on envy provided by scholars from a range of disciplines The first section of the book focuses on the rich theological philosophical and evolutionary foundations of scholarly thinking on envy The second section covers the social psychological work on envy and includes chapters on social comparison processes definitional challenges the link between envy and schadenfreude intergroup envy and fear of envy The third section covers research on envy from organizational psychology experimental economics marketing neuroscience and anthropology The fourth section focuses on the implications of understanding envy for physical and mental health with chapters on psychoanalytic conceptions of envy health psychology and the challenges of coping with envy A final chapter consists of reflective comments on all the chapters and brings together recurring themes and makes suggestions for future research on envy    **The Journal of Classics Teaching** ,2004    **Emotions in Literature** An Sonjae, 2010    [The Book Review Digest](#) ,2006    **Ancient Greece** Sigrid Deger-Jalkotzy, Irene S. Saïd,2006 Karl Marx observed that just when people seem engaged in revolutionizing themselves they anxiously conjure up the spirits of the past to their service While the Greek east under Roman rule was not revolutionary perhaps in the sense that Marx had in mind it was engaged in creating something that had not previously existed in part just through the millennia long involvement with its own tradition which was continually being remodelled and readapted It was an age that was intensely self conscious about its relation to history a consciousness that manifested itself not only in Attic purism and a reverence for antique literary models but also in ethnic identities educational and religious institutions and political interactions with and even among the Romans In this volume which represents a selection of the papers presented at the colloquium Greeks on Greekness The Construction and Uses of the Greek Past among Greeks under the Roman Empire held at the Center for Hellenic Studies on 25 28 August 2001 seven scholars explore some of the forms that this preoccupation with the Greek past assumed under Roman rule Taken together the chapters in this volume offer a kaleidoscopic view of how Greeks under the Roman Empire related to their past indicating the multiple ways in which the classical tradition was problematised adapted transformed and at times rejected They thus provide a vivid image of a lived relation to tradition one that was inventive rather than conservative and self conscious rather than passive The Greeks under Rome played with their heritage as they played at being and not being the Greeks they continually studied and remembered *Pursuing the Good* Douglas L. Cairns,Fritz-Gregor Herrmann,Terry Penner,2007 This volume combines articles on the ethics epistemology and ontology of Plato and the influence of his thinking on Aristotle and beyond *Gestures* Geoffrey W. Bakewell,James P. Sickinger,2003 These thirty essays were presented to Alan L Boegehold a distinguished philologist and an inspirational teacher on the occasion of his retirement and his seventy fifth birthday The contributions fall into two categories each one reflecting Boegehold s diverse interests in classical studies the first section includes essays on literary and philosophical topics several of which pick up on the theme of gestures the second section is representative of Boegehold s more specialised research in Greek epigraphy history and law
