2014 Regional Convention Notebook

Stylianos A. Sotiriou

2014 Regional Convention Notebook:

Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *The Future of the Past: Paths towards Participatory Governance for Cultural Heritage* Gabriela García, Aziliz Vandesande, Fausto Cardoso, Koen Van Balen, 2021-06-03 The Future of the Past is a biennial conference generally carried out during the commemoration date of the incorporation of Santa Ana de Los R os de Cuenca Ecuador as a World Heritage Site WHS It initiated in 2014 organized by the City Preservation Management research project CPM of the University of Cuenca to create a space for dialoguing among interested actors in the cultural heritage field Since then this space has served to exchange initiatives and to promote coordinated actions based on shared responsibility in the local context The third edition of this conference took place in the context of the 20th anniversary of being listed as WHS and a decade of CPM as the Southern host of the PRECOM3OS UNESCO Chair Preventive Conservation Maintenance and Monitoring of Monuments and Sites For the very first time and thanks to the collaboration with the Raymond Lemaire International Centre for Conservation of the University of Leuven Belgium the conference expanded its local scope On this occasion contributions reflected round a worldwide challenge in the cultural field revealing the paths towards participatory governance of cultural heritage Participatory governance is understood as institutional decision making structures supported by shared responsibilities and rights among diverse actors US Economic Aid in Egypt Dina Jadallah, 2016-01-27 Economic aid is one of the cornerstones of the Egyptian American relationship and plays a significant role in promoting US policy objectives in the Middle East Focusing on the latter half of Hosni Mubarak s rule Dina Jadallah argues that through its aid policy the US has attempted to use a reforming and democratising narrative to transform Egypt into a stable market democracy that would be aligned with US interests in the region This aim has been pursued in conjunction with one that promoted a comprehensive warm peace with Israel By highlighting the opposition within Egypt to US aid Jadallah analyses the key issues that came to the fore during the 2010 11 protests in the country and led to the downfall of Mubarak Extending her analysis into the post revolutionary period the author provides interviews with regime insiders and prominent critics inside state institutions and outside who actively challenged the regime This enables her to assess the different perceptions of US aid both under Mubarak and in the current political situation contributing to an incisive analysis of modern Egypt and its relations with its superpower ally in the region **Politics and International Relations in Eurasia** Stylianos A. Sotiriou, 2019-03-28 Eurasia has long been characterized by intense competition among populations and among States The collapse of the Soviet Union constituted a critical juncture in the region s course since informal and formal norms subsided giving rise to a hardly regulated socio political environment where survival and security considerations ranked atop In this context populations first and foremost sought to have their existence guaranteed within nation states While in most cases

that transition was accomplished without major impediments in the cases of Moldova Ukraine Georgia and Azerbaijan major challenges have been encountered leaving their mark deep in the post soviet course of the newly independent republics Moldova has been rattled by the conflict in Transdnistria Ukraine by the conflict in Crimea Georgia by the conflict in South Ossetia and Abkhazia and Azerbaijan by the conflict in Nagorno Karabakh In fact these conflicts have been classified as frozen conflicts given their unsettled nature and the smoldering fire between opposing populations within the respective republics This intense competition however has not been constrained only to the domestic level and only to the issue of frozen conflicts Eurasia s energy prospects have also been the cause of a constant power struggle among the States of the region With the Caspian Sea to constitute a rich in natural resources hub a clash of interests has taken place among the littoral States Moreover this competition has acquired a much broader geopolitical dimension extending to Eurasia s two ends the European Union and China As a result Eurasia s underbelly has become an area where the maximization of power figures as the best guarantee of survival and security in a fully unregulated environment Taken together frozen conflicts domestic level and energy politics international level stand out as the two main features of Eurasia both unfolding in comparable conditions Therefore the book presents them as a two level game aiming at offering better substantiated explanations that draw on the very fundamentals of political science and at building a bridge of communication between the two levels that allows for well informed and widely applicable policy implications

Environmental Remote Sensing and GIS in Tunisia Faiza Khebour Allouche, Abdelazim M. Negm, 2021-03-12 This book focuses on monitoring and assessing various environmental processes in Tunisia using state of the art remote sensing and GIS technologies In addition to addressing the diversity of Tunisian landscapes and providing spatial analysis of natural cultivated and urbanized environments It presents and discusses several case studies on integrated RS GIS approaches for mapping modeling monitoring and evaluation Moreover in this volume authored by experts in the topic from Tunisia and other countries authors assess the agro environmental applications from Tunisia and offer different methods and applications to environmental processes and risks including drought degradation flood planning Yield estimation dust storm detection dry land vulnerability wetland dynamics and others The material presented here will help decision makers plan sustainable landscape and agricultural management policies that preserve biodiversity and contribute to achieving sustainability goals and for researchers it will expose methodological approaches used in different fields of research Graduate students and Practitioner engineers working in the field of RS GIS will also benefit from the book The book ends with a set of conclusions and recommendations to support researchers underscoring the need for further research in this area

National Journal ,2000 **Education for people and the planet: Creating sustainable futures for all** UNESCO,2016-09-12 This edition of the Global Education Monitoring Report GEM Report is the first in a series that will assess the progress of education under the new Sustainable Development Goals SDGs

The First Atomic Bomb Jim Mangi,2022-06-20 While German and Japanese scientists also

labored unsuccessfully to create an atomic bomb by the summer of 1945 the American led team was ready to test its first weapon As the clock ticked down to the detonation time of 05 30 hours on 16 July 1945 the nervous team of technicians and scientists waited ten miles away from Ground Zero deep in the New Mexico desert No one knew how powerful the explosion would be or whether even at such a distance they would be safe from the blast Even so some chose to observe the detonation from a point four miles nearer at the control bunker but then no one was even sure that the bomb would work What if that is actually what happened Under schedule pressure from the White House the scientists assembled the device in part with tape and tissue paper knowing some components were flawed These are verifiable facts It means that as many of those who gathered in the New Mexico desert feared at the time the bomb might not have worked during that first test In The First Atomic Bomb Jim Mangi explores what might happened in the event that the world s first atomic bomb had not been ready for use when it was How would this have affected the end of the war in the Pacific and indeed the Second World War as a whole Would Emperor Hirohito s armed forces have battled on When might Colonel Paul W Tibbets at the controls of his Boeing B 29 Superfortress Enola Gay have then made his historic flight over Hiroshima and would that city even have remained the target How would Stalin and the Soviets have reacted to such developments and how would this have played out in the post war world

Women's Work Jennifer Moore, 2025-03-11 When women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained in postconflict societies In Women s Work Jennifer Moore presents a reimagined theory of peacebuilding and transformative justice based on the experiences and insights of women farmers and microentrepreneurs who lived through protracted civil conflicts drawing on seven years of interviews with women activists across ten communities five in the Acholi region of Northern Uganda and five in the Moyamba and Koinadugu Districts of Sierra Leone Despite the important differences between the preconflict and conflict histories and demographics of the two countries Moore finds commonalities in the practical yet visionary approaches to community life emerging from the core values daily activities and long range goals shared by rural cooperative members in both regions Collective survival communal healing and conflict resolution define the rhythm of these women s daily lives as they go about building peace piecemeal They reject punitive retribution models and demand instead a peacebuilding model that advocates for advances in material well being the acknowledgment of state accountability for community suffering and reconciliation and restoration of community networks But most important Moore amplifies these women s voices when they insist that legal equality for women and healthy partnerships between women and men are also essential components to enduring transformation of their societies Moore theorizes what peacebuilding look like if it were modeled on these women led matriarchically structured communities that proved not only to be effective at holding governments accountable but also to have the capacity to feed their people and revitalize their local economies Women s Work shows that when women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be

sustained through the arts of collective livelihood violence free conflict management and celebration *The Standard Periodical Directory* ,1993 Bowker's Law Books and Serials in Print ,1984 *Ethiopia Year Book ...* , **S & T Post** ,2011 **Subject Guide to Books in Print** ,2001 **The Zoological Record** ,2002 The Directory of Business Information Resources , 1999 Laura Mars,1998-12 *Historical Abstracts* ,1982 **International Business and Trade Directories** Richard Gottlieb,2003 **Congressional Quarterly Weekly Report** ,1988 **Newspaper Index: New Orleans Times-Picayune** ,1975
