

**MARK SCHEME for the October/November 2011 question paper  
for the guidance of teachers**

**4024 MATHEMATICS (SYLLABUS D)**

4024/12

Paper 1, maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Somalia offers one extreme. A collapse of central authority as the outcome of a prolonged civil war where authority descends into competing factions warlords around the spoils of local commerce power and international aid. At the other end of the scale is Malawi under President Bingu. During his abbreviated second term in office the country's economy collapsed as a result of poor policies and personalised politics. On the surface save the petrol queues it was stable underneath the polity was fractured and the economy broken. Between these two extremes of state failure are all manner of examples. This book uses field work based case studies of more than thirty countries incorporating interviews with a dozen leaders to disaggregate various state failures and identify instances of recovery from Latin America Asia and Africa including Afghanistan Congo Sierra Leone Kosovo Somalia and Somaliland Venezuela and Zimbabwe while focusing on a key question How do countries recover and what roles are there for insiders and outsiders    **Economic Integration in Africa** Richard E.
