New World Life Insurance Company,1931 *Principles and Practice of Constraint Programming - CP 2009* Ian P. Gent,2009-09-07 This

volume contains the papers presented at CP 2009 The 15th International Conference on Principles and Practice of Constraint Programming It was held from September 20 24 2009 at the Rectory of the New University of Lisbon Portugal Everyone involved with the conference thanks our sponsors for their support There were 128 submissions to the research track of which 53 were accepted for a rate of 41 4% Each submission was reviewed by three reviewers with a small number of additional reviews obtained in exceptional cases Each review was either by a Programme Committee member or by a colleague invited to help by a committee member thanks to their particular expertise Papers submitted as long papers were accepted at full length or not at all It is important to note that papers submitted as short papers were held to the same high standards of quality as long papers There is thus no distinction in these proceedings between long and short papers except of course the number of pages they occupy As it happens the acceptance rates of short and long papers were very similar indeed There were 13 submissions to the application track of which 8 were accepted for a rate of 61 5% Papers underwent the same review process as regular papers and there was not a separate committee for reviewing application

track papers However papers in the application track were not required to be original or novel research but to be original and novel as an application of constraints     Robotics Research Masayuki Inaba,Peter Corke,2016-04-22 This volume presents a collection of papers presented at the 16th International Symposium of Robotic Research ISRR ISRR is the biennial meeting of the International Foundation of Robotic Research IFRR and its 16th edition took place in Singapore over the period 16th to 19th December 2013 The ISRR is the longest running series of robotics research meetings and dates back to the very earliest days of robotics as a research discipline This 16th ISRR meeting was held in the 30th anniversary year of the very first meeting which took place in Bretton Woods New Hampshire USA in August 1983 and represents thirty years at the forefront of ideas in robotics research As for the previous symposia ISRR 2013 followed up on the successful concept of a mixture of invited contributions and open submissions 16 of the contributions were invited contributions from outstanding researchers selected by the IFRR officers and the program committee and the other contributions were chosen among the open submissions after peer review This selection process resulted in a truly excellent technical program which featured some of the very best of robotic research These papers were presented in a single track interactive format which enables real conversations between speakers and the audience The symposium contributions contained in this volume report on a variety of new robotics research results covering a broad spectrum organized into traditional ISRR categories control design intelligence and learning manipulation perception and planning     *Drafting & Plans Manual of Instructions* California.
