Biotechnology Unzipped Eric S. Grace,1997-01-01 A reader friendly explanation of biotechnology its history and its implications for us all This text uses everyday metaphors to help readers understand the genetic code and how it works to produce every form of life From medical technology to agribusiness Eric Grace examines the realities and ethics of this dynamic technology *The Promise of Biotechnology* ,2005 *New and Forthcoming Books* National Academy Press (U.S.),2000 *Law Relating to Biotechnology, 2nd Ed.* Sreenivasulu N.S.,2026-02-09 This book analyzes laws relating to biotechnology from the perspectives of USA Europe UK and India Consisting of nine chapters the book covers scientific aspects commercial applications policy aspects intellectual property trade environmental human rights and regulatory aspects of biotechnology updated up to 2025 with case laws analysis and legislative updates There are two chapters on public policy and biodiversity aspects of biotechnology The book presents global perspectives on the subject as the work is done keeping in mind the readers from different parts of the globe including but not confined to USA European Union UK and India wherein international laws regional laws national laws from the said regions with case laws and factual analysis It is meant for stake holders from law science and technology with its multi disciplinary approach as it presents both scientific point of view and legal perspective *Biotechnology* Steven P. McGiffen,2005-03-20 Frankenfoods designer babies Dolly the Sheep and Raelian fantasists few subjects generate as much controversy and misinformation as biotechnology This book takes the reader behind the headlines to examine the new laws on genetic based technologies who s making them and why Steven P McGiffen offers a lucid analysis of the real implications of biotechnology legislation in the US and the EU and contrasts it with approaches to agricultural and medical biotech in the rest of the world He argues that the EU and America are removing decision making power from the people and their elected representatives Biotechnology regulation is a local manifestation of a global process of transferring power from the people to corporations from poor countries to rich ones from the public to the private He shows that biotechnology demands effective and democratic international decision making procedures and that we are very far from achieving them This is an indispensable guide for activists and anyone who wants to know more about how to control biotech regulation and how to resist handing control of our future to corporations
