The Criminal Responsibility of Senior Political and Military Leaders as Principals to International Crimes Héctor Olásolo, 2009-05-15 As shown by the trials of Slobodan Milosevic Charles Taylor and Saddam Hussein the large scale and systematic commission of international crimes is usually planned and set in motion by senior political and military leaders Nevertheless the application of traditional forms of criminal liability leads to the conclusion that they are mere accessories to such crimes This does not reflect their central role and often results in a punishment which is inappropriately low in view of the impact of their actions and omissions For these reasons international criminal law has placed special emphasis on the development of concepts such as control of the crime and joint criminal enterprise also known as the common purpose doctrine which aim at reflecting better the central role played by senior political and military leaders in campaigns of large scale and systematic commission of international crimes The Rome Statute of the International Criminal Court and the case law of the ICTY and the ICTR have in recent years played a unique role in the achievement of this goal **Daily Report** United States. such as drivers posterior wall isolation epicardial ablation Recognition of physiopathological signature for AF is the next challenge for all rythmologists This will be achieved only by collecting different inputs such as imagery and mapping This Research Topic will focus on how to define a persistent AF ablation strategy and evaluate its outcome What is the role of pre ablation imagery MRI ultrasound CT in elaborating an AF ablation strategy Could post ablation imagery be a tool to evaluate the success of an ablation Furthermore the different and complex mechanisms initiating and maintaining AF are still under investigation leading to the absence of consensus for ablation treatment What are the roles played by the new mapping tools along with their algorithms regarding the outcome of ablation The recent development of new ablation technologies catheters such as Pulse Field Ablation and Radiofrequency balloon are bringing a lot of questions regarding long term results of PVI and non PV trigger ablation
