Turfgrass John C. Stier, Brian P. Horgan, Stacy A. Bonos, 2020-01-22 Sustainability is a key framework for analyzing biological systems and turfgrass is no exception It is part of a complex that encompasses turfgrass interactions with different environments and the suitability of different turfgrasses for specific environments In addition to its biological role turfgrass in the form of lawns green spaces and playing surfaces brings beneficial sociological effects to an increasingly urbanized society This book presents a comprehensive overview of current knowledge and issues in the field of turfgrass research and management including the genetics and breeding the diseases and pests and the ecology of turfgrasses and will appeal to a broad spectrum of readers

Energy and Sustainability II A. Mammoli, C. A.

Brebbia, 2009-06-08 The way in which our society exists operates and develops is strongly influenced by the way in which energy is produced and consumed No process in Industry can be performed without sufficient supply of energy and without Industry there can be no production of commodities on which the existence of modern Society depends The energy systems evolved over a long period and more rapidly over the last two centuries as a response to the requirements of Industry and Society starting from combustion of fuels to exploiting nuclear energy and renewable resources It is clear that the evolution of the energy systems is a continuous process which involves constant technological development and innovation The presentation on the Second International Conference includes Renewable Energy Technologies Energy Management Energy Policies Energy and the Environment Energy Analysis Energy Efficiency Energy Storage and Management
