Union of International Associations

Business Studies September 2014 Memo Kzn:

The BRICS Studies Xu Xiujun, 2020-05-14 Given their immense potential for development and representation of a new international political and economic order the BRICS countries have become a strong nascent force on the global stage. However as overall economic growth continues to slow down and the geopolitical situation becomes more complex the BRICS countries are facing a series of new challenges that require further development in the way they cooperate with one another. This volume offers a panoramic view of cooperation between the BRICS countries in the light of these new challenges. The editors reveal that policy coordination has been strengthened bringing into play complementary advantages as viable ways for promoting robust sustainable and balanced growth in the world economy. They argue that the experience gained and lessons learned in the development of and cooperation between the BRICS countries has offered a positive role model for cooperation between other countries as well as providing valuable lessons for research in international politics. Students and scholars in international relations and politics will benefit from this volume.

Development Planning in South Africa

John Reynolds, 2018-06-15 Celebrated as a beacon of democracy and reconciliation many people in South Africa continue to live in severe poverty particularly in the Eastern Cape Province. Backed by the United Nations Development Programme the Eastern Cape's provincial government consequently launched an historically ambitious programme the Provincial Growth and Development Plan aimed at tackling the province's poverty unemployment and inequality over a ten year period in a radical policy overhaul. Drawing on the author's first hand engagement with the planning process *Development Planning in South Africa* is an empirically rich study that utilises a strategic relational approach to explore the ways in which this unprecedented challenge was negotiated and eventually undermined by the South African state. The first work of its kind the book provides an indispensable micro level study with profound implications for how state power is understood to be organised and expressed in state policy. Relevant beyond South Africa to policy implementation in both developing and developed states globally the book is essential reading for students and scholars of government studies political economy development policy studies and social movements.

The Infrastructures of Security Martin Murray, 2022-08-15

The shift from dependence upon human decision making in security services to Artificial Intelligence.

The Agonistic City? Li Pernegger, 2020-11-26

This book combines an innovative approach to the investigation of state society relations with a rich account of Johannesburg's contested governance. Its depth and insight will be valued by scholars of Urban Studies Politics and Planning. Glyn Williams University of Sheffield. Writing with both intellectual and practical conviction Li Pernegger's insights into the deeply political and at times violent struggles over services in post apartheid Johannesburg is sensitive and nuanced not least because of her command of how government works at the city scale. Susan Parnell University of Bristol.
