and distribution with some focus on medical locations and a glossary of terms The guidance on tools used and safety legislation has also been brought up to date Brian Scaddan's subject led approach makes this a valuable resource for professionals and students on both City Guilds and EAL courses This approach also makes it easy for those who are learning the topic from scratch to get to grips with it independently of any particular course The book is widely used in education and training across the UK and has been published for almost 40 years *Bibliography of Scientific and Industrial Reports* ,1946
