[Legal Foundations of Land Use Planning](#) Jerome G. Rose, 2012-12-01 Urban planning is a community process the purpose of which is to develop and implement a plan for achieving community goals and objectives. In this process planners employ a variety of disciplines including law. However the law is only an instrument of urban planning and cannot solve all urban problems or meet all social needs. The ability of the legal system to implement the planning process is limited by philosophical historical and constitutional constraints. Jurisprudence is concerned with societal values and relationships that limit the effectiveness of the law as an instrument of urban planning. When law is definite and certain freedom is enhanced within the boundaries created
